

PRAVEEN KALANSOORIYA

Software Engineering Undergraduate | Full-Stack Developer

Sri Lanka • +94 742826978 • kalansooriya615@gmail.com • [Portfolio](#) • [Medium](#) • [Linkedin](#) • [Github](#)

SUMMARY

Bachelor of Information and Communication Technology (Hons.) undergraduate with a strong foundation in Object-Oriented Programming, Data Structures and Algorithms, and Software Engineering principles. Full-Stack Developer experienced in JavaScript, TypeScript, Python, React.js, Node.js, Express.js, and MongoDB (MERN Stack), with hands-on experience building RESTful APIs, JWT Authentication, and Role-Based Access Control. Skilled in UI/UX Design using Figma, with a working knowledge of SQL, Git/GitHub, and Agile development practices. Seeking a Software Engineering Internship to apply technical skills in a real-world, product-driven environment.

CORE TECHNICAL SKILLS

Programming Languages: Java, JavaScript, TypeScript, Python, C#, SQL

Software Engineering Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, RESTful API Development, MVC Architecture, Software Design Principles

Frontend Development: React.js, Next.js, TypeScript, Tailwind CSS, Responsive Web Development, Component-Based Architecture

Backend and Database Technologies: Node.js, Express.js, .NET, MongoDB, MySQL, PostgreSQL, Database Design, SQL Query Optimization

Development Tools and Practices: Git, GitHub, Visual Studio Code, Version Control, Debugging and Testing

UI/UX Design: Figma, Wireframing, Prototyping, Design Systems

Cloud & DevOps: Docker, CI/CD (GitHub Actions).

PROFESSIONAL EXPERIENCE

ARTEMSPHERE - Graphic Designer

2025 - Present

- Designed digital brand identities and marketing materials for multiple clients.
- Translated business requirements into visually engaging designs optimised for digital platforms.
- Collaborated with developers to ensure design handoffs were technically feasible and performance-optimised.

People's Bank - Cashier Intern

2022 - 2023

- Assisted in daily banking operations including cash transactions, customer service, and account handling.
- Supported customers with inquiries and basic banking services, improving service efficiency and customer satisfaction.
- Gained hands-on experience in financial systems, teamwork, and professional workplace communication.

PROJECTS

POS & Inventory Management System | MERN Stack

React.js, Node.js, Express.js, MongoDB, JWT

- Engineered a full-stack POS platform supporting product management, inventory tracking, cart management, checkout, and complete order lifecycle workflows.
- Designed secure RESTful APIs with JWT authentication and implemented concurrency-safe stock reservation with atomic database operations to prevent overselling.
- Implemented stock validation, mock payment processing, reservation expiry, and responsive UI components, delivering a reliable end-to-end order processing experience.

[Live Demo](#) | [GitHub Repository](#)

PowerFit E-Commerce & Admin Management System | MERN Stack

React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS

- Engineered a comprehensive full-stack e-commerce platform featuring a responsive customer storefront and a dedicated administrative dashboard for product, inventory, and order lifecycle management.
- Designed secure RESTful APIs utilizing role-based JWT authentication, and implemented real-time stock validation during the checkout process to maintain inventory accuracy and prevent overselling.
- Developed end-to-end workflows including shopping cart management, seamless checkout, order tracking, and dynamic admin CRUD operations, delivering a highly reliable user experience.

[Live Demo](#) | [GitHub Repository](#)

Library Management System | C# & .NET

C#, .NET, ASP.NET Core, SQL Server, Entity Framework Core

- Developed a library management system for managing books, members, borrowing, and return operations using C# and .NET.
- Implemented RESTful APIs and CRUD operations with Entity Framework Core and SQL Server for efficient data management.
- Applied OOP, MVC architecture, and software design principles to build a structured and maintainable application.

Meloxia Web Platform | MERN Stack

React.js, Node.js, Express.js, MongoDB, UI/UX

- Designed and developed a responsive full-stack web platform with a modern UI/UX, focusing on usability, visual consistency, and responsive user experiences.
- Implemented a distinctive digital brand identity through structured content layouts, reusable UI components, typography, and modern web design principles.
- Integrated frontend and backend components using the MERN stack, demonstrating end-to-end development capabilities from database integration and API communication to responsive frontend delivery.

[Live Demo](#) | [GitHub Repository](#)

Wadakaru.lk UI/UX Concept & Interactive Prototype

UI/UX Design | Figma | Prototyping

- Designed three high-fidelity mobile interface screens for Wadakaru.lk, focusing on intuitive navigation, clear information hierarchy, and a streamlined user experience.
- Developed an interactive Figma prototype applying modern UI/UX principles, responsive design patterns, visual consistency, and user-centered interaction flows.

EDUCATION

Bachelor of Information and Communication Technology (BICT Hons.) - Undergraduate

Faculty of Computing and Technology, University of Kelaniya, Sri Lanka

G.C.E. Advanced Level

2021

Technology Stream - Dr. Richard Pathirana College, Galle
